|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| (1) | comments.  As the 58th Mecz Regt of the 18th Mecz Div is believed located in the Artillerie Kaserne in Ferleberg, the tanks probably belong to another tank unit of the division.  Medium tanks and SP guns were repeatedly observed at the sirfield in Perleberg. This observation as well as the fact that the correct number of tanks to correspond to a medium tank regiment have not been observed in Parchim since the fall of 1951, tends to indicate that the unidentified medium tank regiment of the | 25X1      |
|     | 18th Mecz Div may be stationed at Perleberg airfield.  The tanks probably moved to the wittstock training grounds where a tank detachment of a unit from hudwigslust had been seen in late March 1952. See MoL-18113 (50-87532x).                                                                                                                                                                                                                                                                              |           |
| (2) |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 25X1<br>, |
| (3) | It cannot be determined whether the train carrying a tank unit of the 25th Tank Div had arrived for unloading or proceeded. The tube-shaped containers on the tank chassis may have been                                                                                                                                                                                                                                                                                                                       | <br>25X1  |
|     | reserve fuel tanks.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |           |
